Subject: Clean Air Act Section 114 Request for Midwest Sterilization

Greetings,

A Clean Air Act section 114 request has been sent to Midwest Sterilization, requesting detailed information on ethylene oxide (EtO) sterilization facilities that they wholly own or operate. The purpose of this request is to inform a future rulemaking for the commercial EtO sterilization industry under 40 CFR Part 63, subpart O.

You are listed as a cc for the letter, as the company wholly owns at least one EtO sterilization facility in your region or state. A courtesy copy is attached, and the physical letter and enclosures been sent to the company. Please let me know if you have any questions.

Thank you,
Jonathan
